3. Brush Mower (1) (\$500 new)
4. Parabolic microphone/bionic ear (\$200)
5. Drisco fusion machine (\$5,000) – connects irrigation pipe without metals
6. HEAVY-DUTY PAPER SHREDDER – NEW (about \$1,000) or USED (would be great, too!) *Shredded paper is bagged and sent to Kaho'olawe where Restoration Program staff and volunteers compost it with food scraps. Once composted, it's taken to planting areas, mixed with mulch materials (including wood chips) and mulched around fragile native plantings, shrubs – and soon trees – creating mini-ecosystems that protect the plants. As it decomposes, it breaks up the hardpan, allowing our native plants to sink their roots into living soil.*

### OTHER

1. Sponsorship of *Kanu Wa'a* paddling program tee shirts (\$1000 - \$2000)
