Marine Debris Removal from Kanapou on Kaho‘olawe (NFWF Marine Debris)

BACKGROUND

This grant project will remove a minimum of five tons of marine debris from Keoneuli during three accesses to the area. This project will divert all the debris from entering any landfill. Debris collected from Keoneuli will be either shipped to Oahu’s H-Power to be used as fuel to power local homes and businesses or the debris will be bundled and repurposed as sediment reduction material in the mauka areas on Kaho‘olawe. Grant period: January 2020 to December 2022.

DELIVERABLES

- Five tons of debris removed from Keoneuli, Kanapou.
- All debris used for energy conversion or sediment reduction.
- A minimum of three trips to Keoneuli.

AWARD AMOUNT: \$76,000.00

FUNDER: National Fish and Wildlife Foundation

HIGHLIGHTS

- To date, one cleanup has occurred and approximately 6,000 to 8,000 pounds of plastic debris from Keoneuli Beach was collected, aggregated, sorted, and prepped. This debris will be flown from Kaho‘olawe or taken mauka for erosion control.
